FORESTRY BOARD HOLDS SESSION

MAUI FOREST RESERVE RECOMMENDED—HOSMER REPORTS AS TO THE LUMBERING OF KOA.

The Board of Agriculture and Forestry at its meeting yesterday recommended the setting aside of a forest reserve on Maui by the following resolution:

"Resolved, that the Board of Agriculture hereby recommend the setting aside of a portion of the Government Forest land of Makawao, Island of Maui, being a portion of said land of Makawao, containing 2081 acres, more or less, being indicated as a forest reservation, and also that those portions of the abupua of Kailalinalu, containing 5718 acres is an important and valuable part of the Koolau forest which is a natural boundary of the forest aforesaid." The resolution called for notifying the Governor of the Board's action.

Superintendent of Forestry Hosmer presented the following report of his visit to the Koa forest back of the Volcano House, Hawaii, near the crater of Kilauea:

I beg to submit herewith a report upon my recent trip of inspection to the land of Keaunohu, Kau, Hawaii, made in company with F. S. Dodge, at the request of the Bishop estate.

The tract visited was the lower half of that part of Keaunohu lying on the southeastern slope of Mauna Loa, making of the Government road and between the lands of Olua and Kapapala. A strip of about a mile in width on the Olua side of this tract has been set apart by the Bishop estate as a private forest reserve. This area, 4500 acres, is fenced in and cattle are excluded from it. The remainder of the tract is leased to Mr. O. T. Shipman as a cattle ranch.

The portion of the tract containing the Koa forest about which the Bishop estate desires advice is a strip just west of the above described reserve. It extends from the Government road near Mr. Shipman's house to a paddock fence across the tract at an elevation of about 500 feet, some five miles in length by a mile or more in breadth; an area of between 4000 and 500 acres.

On this section, particularly on its upper half, is a fairly heavy stand of large Koa (acacia Koa) trees. The forest is practically pure Koa, there being few other trees in mixtures. Beneath the Koa is a dense jungle of tree ferns (Cibotium menziesii).

The Koa trees are of good size and quality, many of the larger ones being from 80 to 100 feet in height and from two to six feet in diameter, breast high. These trees are mature and in my judgment ought soon to be cut and utilized.

The local conditions are such that with proper facilities for handling the logs the large trees could be felled and got out of the forest at reasonable cost. The demand for Koa is believed to be great enough to insure a market for the product, and a fair profit. If the work is handled in a business like way by the right people, the proposition therefore may be regarded as a feasible one from a business standpoint.

Considered from the point of view of the forester the removal of valuable trees, when mature is distinctly good policy, provided always that the work is done in such a way that another crop is insured. This, indeed, is the key note of forestry.

On the land in question I believe that the value of the Koa forests is greater because of its commercial importance than for any other reason, that, provided the work were done in accordance with forestry methods, the mature trees could be lumbered without detriment to the permanent productive value of the forest; and provided an assured market can be secured, that the logging of the tract at this time is good business policy for the Bishop estate.

In my report to the Bishop estate I shall, therefore, recommend that the tract be logged, provided suitable arrangements can be made as to stumpage prices, and provided also that certain regulations, to be contained in my report, be made a part of the contract.

Very respectfully,
RALPH S. HOSMER,
Superintendent of Forestry.

Upon motion it was decided that Gertrude P. Wilder should represent Hawaii at the meeting of the National Forestry Association which is to be held at Washington in January.

A letter was read from Explorer Fairchild of the Agricultural Department stating that he would secure the best kind of rubber trees for shipment to Hawaii.

The appointment of Mr. Watt as consulting forester of Olua and Puna was confirmed.

DECREE AMENDED.

Judge Robinson has authorized an amendment of the decree of foreclosure and sale of the property of the Hana Plantation Company permitting sale to be made in parcels or en bloc.

A Timely Suggestion.—This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. Sold by all dealers. Benson, Smith & Co., agents for Hawaii.

LAW'S POWER OVER LEPERS

ATTORNEY GENERAL FILES HIS BRIEF IN HABEAS CORPUS PROCEEDINGS OVER KAIPU CASE.

The brief for the Board of Health in connection with the application for a writ of habeas corpus to secure the release of Mikala Kaipu from detention as a leper, was filed yesterday afternoon by Attorney General Andrews. It sets up that the petitioner Emma Kaipu, by her attorney C. W. Ashford, has set up only one issue, that being the legality of the statute under which the woman is held by the Board of Health. The Attorney General quotes many cases and precedents to show that the legislature has full power to make laws for the protection of the public health. As to the section requiring the persons detained at the leper settlement to do some work, the Attorney General states that this is merely inserted to enable the patients to do sufficient work to keep themselves in as healthy a condition as possible. It cannot be regarded as involuntary servitude for there is no punishment provided in case a patient should refuse to work.

The brief then says: "The serious question before the court as to whether, before a person can be declared a leper, and isolated for treatment, he or she is entitled to appear before a court and have a legal trial. In other words, do the words in the Constitutional Amendment, 'due process of law,' require in a case like this formal court proceedings before a person can be quarantined for a contagious and infectious disease?"

The Attorney General submits that formal court procedure in the case is neither necessary nor desirable and that the police power of the Territory is not strained by the regulations now in force.

CLIPPING BRINGS NEWS OF TRAGEDY

HOW GEORGE WARD LEARNED OF AN UNCLE'S DEATH IN PENNSYLVANIA.

A newspaper clipping telling of a Pennsylvania tragedy whose victim remains unidentified gave George Ward of this city his first news of the death of an uncle. Ward is foreman for Lord & Belser and lives at 482 Hotel street, to which address reference was made in the clipping. In the description in the following from a newspaper of Mahanoy City, Pennsylvania, he recognized his uncle John T. Doyle, as the deceased, of whom he last heard in Alaska:

"The mystery surrounding the finding of the dead body of a man just above the eastern end of the borough yesterday morning by Charles Selsgrath, of Buck Mountain, who was on his way to town, is still unsolved. Two little boys, whose names could not be learned, and who were on their way to church also saw the dead body and notified Deputy Coroner Dr. G. W. Reese, who had it removed to the undertaking establishment of James Haughey, where it was viewed by many people, but no one was able to identify the man or even having seen him before. A post mortem examination was held this morning by Dr. J. V. Klock but the result is not yet ready for publication. The different parts examined appeared to be in a healthy condition and the contents of the stomach will be analyzed to find if death was caused from poison.

"The body, stripped to the waist, was found lying on the right side of the face with the right arm doubled under the body alongside of an abandoned Philadelphia and Reading Railway track, known as the old Gorman siding. Other than the face was covered with coal dirt and a wound over the left eye, there were no other marks upon the body, and there was nothing to indicate that the man had met with foul play. The man's coat with his collar and tie in the pocket, vest, shirt, undershirt and two extra vests were found in a mine breach a short distance from where the body lay. The coat contained a number of letters addressed to John T. Doyle at Paterson, N. J., Williamsport and other cities. A receipt of recent date from the Prudential Insurance Company for twenty-five cents, signed by F. A. Garrison and issued to John T. Doyle, was on his person. Also a pay envelope for \$4.35 from the Hamilton Trust Co., of Paterson, N. J. A letter, evidently written by himself, dated July 9, 1899, to a friend named Williams showed that he had been a member of Co. K, 8th U. S. Inf., stationed at Fort Robinson, Nebraska. Other letters were from a sister Mrs. Annie Ward, No. 482 Hotel street, Honolulu, dated 1892; one signed Lizzie, Paterson, N. J., dated October 2, 1903; another from A. J. A. West, of the "White Hats" a theatrical organization, recommending him to a friend as a steady, sober and reliable man.

"The dead man is about five feet eight inches in height; weighs about 155 pounds, has light sandy hair tinged with gray, short red moustache and appears to be about 40 years of age. He wore a brown suit of clothes and looked like a man of refinement and intelligence. There was no money nor valuables of any kind found in his pockets and the supposition is that he was under the influence of liquor and lured to the lonely spot where he was found and after being robbed was abandoned."

AORANGI'S CHRISTMAS MAIL.
The S. S. Aorangi took 50 sacks of mail yesterday for the Mainland. She is the last vessel to leave here, that will get to the mainland prior to Christmas.

Christmas Gifts

Suitable for Men

Just what gift will please a man is always a puzzling problem for the fair sex at Christmas time. Let us make this hint. A man appreciates, above all things, something practical—something that will be useful as well as pretty. For instance take any of these: A GOOD UMBRELLA with a natural wood, silver mounted, or horn handle. A HANDSOME SUIT CASE well constructed of good leather. You can get them fitted with all convenience for traveling if you choose. One whole store devoted to trunks and suit cases alone. BATH ROBES in elegant patterns. RICH DRESSING GOWNS and smoking jackets. STEAMER RUGS for comfort in traveling. NECKWEAR AND MUFFLERS in richest silks and patterns. SILK SUSPENDERS, handsomely trimmed and attractively boxed. Belts, Panama Hats, Silk Bandanas, Fancy Hosiery, Etc.
